

DO YOU HAVE QUESTIONS ABOUT OUR RECYCLING?

Need help with recycling? Confused about what goes into our bins in the recycling room? We know it can be tricky. So, we are having some waste education staff from the Regional District of Central Okanagan (RDCO) coming to our building to answer your questions. **They will be in the <recycling room/lobby> at <time> and in the <recycling room/lobby> at <time> on <date>.**

The RDCO has developed an online toolkit of resources to help answer questions and offer useful tips on how to properly recycle.

In the toolkit, you'll find:

- Tips for small-space storage solutions
- Information on going low-waste and composting
- Resources for understanding depot items and household hazardous waste
- Access a current list of recycling depots in the region

Simply scan the QR code below to get started. Or, type this link into your phone or computer's browser to access the information: www.rdco.com/multifamily

No tech? No problem. Here are some ways to access the toolkit:

- Enlist the help of friends, family members, or neighbours to help you download and print a condensed version of the toolkit
- Call our office and we'll happily assist you
